* Brokerage and Consulting Services are identical in terms of level of service to Hedge Clients by our firm. Both services include: (1) Initial risk management consultation and assessment based upon each individual's needs (such as storage capacity, crop insurance level, basis levels, etc.). At this stage, our firm and Hedge Client also agree to initial hedge price levels and quantity to hedge for the first increment, and whether the hedge will be done by cash and/or futures. (2) An Excel Spreadsheet is set-up by us, which will track hedge levels of each commodity along with price sold, and what type of contract was implemented. Data that we keep in this spreadsheet is only as good as what the client provides, so we request that copies of sales to elevators be made accessible to our firm, in order to assure more accuracy. (3) Both Brokerage and Consulting Services include unlimited toll-free access by phone, VOICE-BLASTS on recommendations, as well as all research provided by the website--including all that is described in the highest level of subscription services.

All Subscription Services come Free of Charge for Cash-Only & Brokerage Clients.
